Tobacco Stocks Report as of October 1, 1970

U. S. DEPARTMENT OF AGRICULTURE CONSUMER AND MARKETING SERVICE TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

Washington, D. C. November 20, 1970

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced principally in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced principally in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced principally in the coastal sections of South Carolina, and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced principally in southern Georgia and northern Florida.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkins-ville; produced principally in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced principally in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

Type 31: Burley; produced principally in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Type 32: Southern Maryland; produced principally in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced principally in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced principally in Lancaster County, Pa., and the adjoining counties.

Type 42-44: Ohio filler; produced principally in the Miami Valley section of Ohio and extending into Indiana.

Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba.

Type 82: Indonesia.

Type 83: Philippine Islands.

Type 84: Brazil.

Type 85: Colombia.

Type 86: Dominican Republic.

Type 87: Paraguay.

Type 88: Mexico.

Type 89: All foreign-grown cigar-leaf.

Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/2

Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,666 million pounds as of October 1, 1970. This was a decline of 105 million pounds from the 1969 October level. Growers marketed around 820 million pounds during the third quarter, mostly flue-cured.

The marketing year for all kinds of tobacco, except flue-cured and cigar wrapper, is on an October-September basis. The indicated total combined disappearance (exports plus domestic consumption) for all U.S. types during the 1969-70 marketing year was 1,965 million pounds compared with 1,992 million the previous year. Domestic manufacturers used approximately 256.4 million pounds of imported tobacco during the past fiscal year -- 174 million pounds of cigarette leaf and 82.4 million of cigar. Exports of U.S. leaf during the 1969-70 marketing year totaled 640 million pounds compared with 623 million in 1968-69.

Stocks as of October 1, 1970 included 1,298.5 million pounds of leaf tobacco under Government loans. These loan stocks were divided as follows: Flue-cured, 806.6 million pounds; burley, 454.8 million; fire-cured, 11.1 million; dark air-cured, 18.2 million; and cigar leaf, 7.7 million pounds.

¹/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis). This report is issued quarterly.

 $[\]underline{2}/$ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

Burley stocks higher; Flue-cured, Maryland, and imported cigarette and smoking leaf declines.

<u>Flue-cured</u> stocks on October 1, 1970 at 2,426 million pounds were 67 million below the level of a year ago. Marketing of the 1970 crop, currently estimated at 1,161 million pounds, began in July and by the end of September **811** million pounds had been sold.

Burley stocks were 1,343 million pounds this October 1 compared with 1,316 the year before. Total disappearance during the past marketing year amounted to 565 million pounds. Exports were 58 million pounds leaving a residual domestic consumption of 507 million.

Inventories of <u>Maryland</u> tobacco fell to 62.0 million pounds, the lowest October figure since 1950. Disappearance during the 1969-70 marketing year was 41 million pounds. With exports at 12 million pounds indicated domestic usage was 29 million pounds.

Imported cigarette and smoking tobacco leaf showed stocks of 405.8 million pounds, a decline of 17.2 million.

DARK TOBACCO STOCKS

All types show declines.

<u>Fire-cured</u> tobacco stocks, reported at 73.6 million pounds were 8.9 million smaller than a year ago. Stocks on October 1 were divided as follows: Virginia, 9.8 million; Eastern District Kentucky and Tennessee, 52.8 million; and Western District, 11.1 million pounds. Disappearance of fire-cured during the 1969-70 marketing year totaled 49.7 million pounds, a gain of 3.2 million pounds due to larger exports.

<u>Dark air-cured</u> stocks on this October 1 were reported at 57.0 million pounds, a decline of almost 6 million pounds. Individual totals this quarter were: One Sucker, 34.3 million; Green River, 19.4 million; and Virginia sun-cured, 3.3 million pounds. Disappearance of dark air-cured tobacco during the 1969-70 marketing year was 25.3 million pounds, a gain of 6.8 million pounds due to increased usage of Green River.

CIGAR-LEAF STOCKS

<u>Domestic cigar leaf stocks continue decline</u> <u>Foreign-grown leaf gains</u>

<u>Cigar-leaf</u> stocks of all domestic types, including Puerto Rican, totaled 200.0 million pounds on October 1, 1970 -- 15.7 million below the figure reported a year earlier. Stocks of foreign-grown leaf were 99.1 million pounds compared with 96.1 million last year.

Combined stocks of the <u>cigar-filler</u> types at 125.6 million pounds were 16.2 million below last October 1. Declines occurred in all types with Pennsylvania and Puerto Rico showing the heaviest loss. Stocks by types this October 1 were: Pennsylvania Seedleaf, 97.3 million; Ohio Filler, 9.0 million; and Puerto Rican filler, 19.3 million pounds. Total disappearance of the filler types during the past marketing year totaled 62.4 million pounds, unchanged from 1968-69.

<u>Cigar-binder</u> stocks were 42.3 million pounds on October 1, 1970, a drop of 7.0 million pounds from the previous year. All types had lower inventories. Connecticut Valley Broadleaf stocks this October 1 were, 4.3 million pounds; Connecticut Valley Havana Seed, 2.7 million; Southern Wisconsin, 16.7 million; and Northern Wisconsin, 18.6 million pounds. Disappearance of the binder types totaled 22.3 million pounds, a loss of 5.3 million pounds.

Shade-grown leaf stocks were 25.4 million pounds, compared with 24.6 million a year ago. Connecticut Valley stocks were 15.1 million and those of Georgia - Florida, 10.3 million pounds.

Stocks of <u>Cuban</u> tobacco were reported at .9 million pounds. Holdings of <u>Philippine Islands</u> leaf were 38.9 million -- down 1.3 million; <u>Indonesia</u>, 3.4 million; <u>Brazil</u> 9.2 million; <u>Columbia</u>, 10.1 million; <u>Dominican Republic</u>, 9.5 million; <u>Paraguay</u>, 8.9 million; <u>Mexico</u>, 5.9 million; and other foreigngrown, 12.3 million pounds.

TOBACCO SHEET

Leaf in sheet leveling out.

Stocks of leaf represented in inventories of "tobacco sheet" totaled 33.3 million pounds (reported weight) compared with 30.5 million a year earlier. Although this is an increase of 2.8 million pounds from October 1, 1969, the current inventory is below the level of prior reporting dates in 1970. Of the total in "sheet" this October 1, 31.8 million pounds were for use in cigarette and smoking tobacco, and 1.5 million for cigar binder and wrapper.

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{3/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent,

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

^{2/} Type 73 is defined as all domestic types of tobacco not otherwise classified; the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the types to which they properly belong.

^{1/} Tabulated by broad groupings of ownership. "Other" represents stocks of dealers and those held in United States by foreign manufacturers. Stocks shown as of July 1 for flue-cured and cigar wrapper and October 1 for all other types.
2/ Sales substituted for production.
3/ Subject to revision.
4/ Howember 1 estimate, U. S. Crop Reporting Board, SRS. 5/ Includes 4.7 million pounds destroyed by fire.
5/ Less than 50,000 pounds. * Revision.
Detail may not add to total because of rounding.

TABLE 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reporting in table 4.
2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to previsions of the Tebacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.
3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government lean stocks are dealers' holdings.
4/ Includes stocks on the Island of Fuerto Rico.
5/ For explanation of stocks included in this classification see footnote 2 on page 7.

* Revision.

TABLE 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, October 1, 1970, compared with other quarters $\underline{1}/\underline{2}/$

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1969, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 2 on page 7.

Revision.
